REPORT OF PRINCIPAL AND SCHOOL
IMPROVEMENT COUNCIL

Within the mission and vision statement of Lexington County School District One, there are specific statements that serve as guiding principles for providing opportunities for students. These statements best articulate the success seen at White Knoll High School during the 2013-2014 school year. As we come to the close of our second year under new leadership, we see strong evidence that faculty and staff continue to provide an “array of exceptional learning experiences” and foster a “high-performance culture of excellence” where high expectations are set for all students.

The graduating class of 2014 provides great evidence of this success. Of the 443 graduating seniors, 97 graduated with Honors and 259 received LIFE Scholarships. The total amount of scholarships awarded at the time of graduation was \$11,543,046. It is clear that WKHS continues to prepare leaders ready for the next level of education and vocation.

Success can also be seen in ongoing efforts to provide students “opportunities to develop talents, interests and skills” in the Center for Public Health and Advanced Medical Studies. WKHS boasted the first graduating class of Center students this year and had students studying abroad in Costa Rica for the second year.

White Knoll is also focused on affording students “opportunities to practice leadership and citizenship in a global context.” The WKHS DECA program had 27 award winners at the 2013-2014 S.C. State DECA competition and three finalists in the 2013-2014 International DECA competition. Two students placed in the top 10 in the world at the DECA International Convention in Atlanta. In addition, the WKHS Virtual Enterprise Team had 10 winners at the 2014 S.C./Southern Region Trade Show, and drafting students took first place in both Technical Drafting and Architectural Drafting at the 2014 SkillsUSA State Championship.

Lastly, White Knoll prides itself on embodying the district vision that “each student receives the personal support necessary to reach his or her goals through a caring environment that advocates for students and works to eliminate barriers to learning.”

For the second year, the school used a mentoring program, focused on subgroups such as at-risk seniors, 16-year-old freshmen and students transitioning back to WKHS from FOCUS. In conjunction with our mentoring program, we are expanding our plans to support our growing student population by establishing a leadership program. We are also continuing to develop our use of PrimeTime, an intervention block, to provide academic support to students.

It is through the mentoring and leadership programs, as well as the use of on-time interventions, that faculty and staff can not only advocate for our students, but can also provide them with personalized and caring support as each student strives to live out the WKHS mission of becoming a productive citizen and lifelong learner.
